

Credo's Topic Pages now include ebrary® content

Boston and Oxford, June 22, 2010 – Credo Reference, the award winning online reference library, is now partnering with ebrary®, a leading provider of digital content products and technologies, to provide a user-friendly customization option for the new Credo Topic Pages.

Credo Reference users will now be able to research ebrary's extensive ebook content directly from the Credo Topic Pages. Designed to provide contextualized, orderly access to authoritative content, each of the approximately 9,000 Credo Topic Pages is a starting point that assembles topical material from resources within and outside the library. Now, libraries that include the additional content will see their ebrary collection on Topic Pages, customized to their library.

Founded in 1999, ebrary offers academic libraries, corporations, public libraries and other organizations more than 170,000 full-text e-books from over 425 leading publishers under subscription, perpetual access and usage-based models. ebrary is the first ebook vendor to be included in the Credo Topic Pages.

“We are pleased that our partnership with Credo Reference will make authoritative content even more visible and accessible to users of the library's resources,” commented Leslie Lees, Vice President of Content Development at ebrary. “The Credo Topic Pages help researchers by providing a starting place for their study, and with ebrary's powerful technology for finding, using and managing information online, their research will be both easier and more thorough than ever before.”

“Since a key Credo goal is to unlock the full value of what the library has to offer, this partnership with ebrary was a natural step for us,” added Mike Sweet, Credo Reference CEO. “The Credo Topic Pages, with the ebrary content included, are just one more way to create value for both the libraries and the researchers who are using its resources.”

###

Founded in 1999, **Credo Reference**, with offices in Oxford and Boston, has been offering completely customizable reference collections for libraries since 2002. Credo's General Reference services combine extensive content from multiple publishers with unique cross-referencing technology, effortlessly delivering authoritative answers to millions of researchers worldwide. Publisher Collections allow libraries to augment their collection with specific, deep reference content from highly-regarded publishers. ebrary helps libraries, corporations, publishers, and consumers get the most out of their digital content. The company offers a growing selection of more than 170,000 digital books, handbooks, reports, maps, journals and other valuable content from over 425 of the world's leading publishers under flexible subscription, purchase, and usage-based models. Additionally, ebrary offers content services—DASH! (do-it-yourself), Software as a Service (SaaS) and licensed—for customers to cost-effectively distribute their own PDF content online.

All ebrary products and services can be integrated and delivered via a single easy-to-use interface that includes powerful tools for finding, discovering, and managing information. With ebrary InfoTools™, every word in the ebrary system is a network to other online resources of the customer's choice, extending content value while increasing end-user knowledge and efficiencies. Founded in 1999, ebrary is privately held and is headquartered in Palo Alto, CA, USA. Visit www.ebrary.com
