ebrary Platform Available in French

Customers and end-users may now choose among four different languages

June 6, 2007 – Palo Alto, CA, USA – ebrary® (www.ebrary.com), a leading provider of eContent services and technology, today announced that the ebrary Reader™ and interface are now available in French as well as English, Spanish, and Portuguese. The new development helps librarians meet the needs of multicultural end-users, who can change the display language on the fly. It also adds another language option for publishers or any organization that need a cost-effective way to share and distribute non-English content online.

“ebrary is committed to developing products to meet the needs of our customers around the world,” said Christopher Warnock, CEO of ebrary. “In addition to providing a richer experience for end-users, our support of French as a native language interface addresses the needs of institutions worldwide that are becoming more culturally diverse. We look forward to offering even more language options in the future.”

Libraries and other organizations that use the ebrary platform to acquire content under a variety of business models or to distribute their own proprietary content online may choose any of the four languages as the default. End-users may change the display language at any time using a pull-down menu on the ebrary interface.

Additional key features and benefits of the ebrary platform include the following:

- Flexible options for acquiring content, under a variety of pricing and access models.
- Any time, anywhere access.

- InfoTools™ enables integration within the library catalog and other resources as well as contextual linking to information on the web. End-users never lose their place of reference.
- Translate text to and from different languages, including English and French.
- The ebrary Reader delivers documents online, page-by-page, eliminating cumbersome downloads.
- Multiple search options including simple, advanced, full-text, and key word.
- Personal bookshelves automatically save links to highlights, notes, and bookmarks.
- Automatic, customizable citations when pages are printed or when text is copied and pasted. ebrary citations include a URL hyperlink back to the source.
- Usage statistics provided.
- Hosted solution eliminates overhead costs.
- Easy PDF submission.
- Simple meta-tagging.
- Support and training tools.
- Ability to customize and further integrate with ebrary APIs.

For an overview of the technology, view the Flash demo at

About ebrary (www.ebrary.com)

ebrary® is a leading provider of eContent services and technology. The company helps libraries, publishers, and other organizations disseminate valuable information to end users, while improving end-user research and document interaction.

The company has developed a flexible eContent platform, which customers may use in a number of different, integrated capacities: ebrary customers may purchase or subscribe to eBooks and other content under a variety of pricing and access models, and they may license the ebrary platform to distribute, sell, and market their own content online. All options are delivered using a customizable interface and include the ebrary Reader™ with InfoTools™ software, which enable integration with other resources to provide an economical and efficient way to utilize information.

ebrary currently offers a growing selection of more than 120,000 eBooks and other titles from more than 260 leading publishers and aggregators.

For four consecutive years, ebrary has been named to the EContent 100 list of “companies that matter most” in the digital content industry.

Founded in 1999, ebrary is privately held and is headquartered in Palo Alto, CA.
