## **ebrary Integrates with RefWorks and EndNote, Adds Printing to QuickView, Offers Search by Collection**

**May 18, 2009 – Palo Alto, CA, USA** – ebrary®, a leading provider of digital content products and technologies, today announced that it has enhanced its industry-renowned interface with a number of new capabilities that make content discovery, usage, and management quicker and more productive.

All ebrary products now integrate with RefWorks and EndNote for easy citation management. End-users may choose to enable RefWorks, EndNote, or both. Once enabled, these options appear under the new InfoTools™ menu in ebrary’s QuickView™ Reader, which does not require any software downloads or installations, as well as in search results and personal bookshelves.

Additionally, ebrary has added printing capabilities to QuickView™, which can also be located under the InfoTools menu. The company plans to continue to enhance QuickView with additional InfoTools functionality.

Furthermore, ebrary now enables customers that offer a combination of ebrary products – subscription, perpetual access, and e-publishing services for their own PDF content – to search specific collections as well as the entire repository using the same interface.

“ebrary continues to address our customers’ needs by developing new features and technologies that help end-users be more productive and informed,” said Christopher Warnock, CEO of ebrary. “We look forward to adding more functionality to QuickView and our other technologies to improve the accessibility and discoverability of authoritative information.”

Libraries, corporations, and other organizations interested in seeing a demonstration of ebrary's new features can email [ebtrain@ebrary.com](mailto:ebtrain@ebrary.com).

**About ebrary ([www.ebrary.com](http://www.ebrary.com))**

ebrary helps libraries, corporations, publishers, and consumers get the most out of their digital content. The company offers a growing selection of more than 170,000 digital books, handbooks, reports, maps, journals and other valuable content from over 350 of the world's leading publishers under flexible subscription, purchase, and usage-based models. Additionally, ebrary offers e-publishing services for customers to cost-effectively distribute their own PDF content online on ebrary's servers or their own.

All ebrary products and services can be integrated and delivered via a single easy-to-use interface that includes powerful tools for finding, discovering, and managing information. With ebrary InfoTools™, every word in the ebrary system is a network to other online resources of the customers' choice, extending their value while increasing end-user knowledge and efficiencies.

Founded in 1999, ebrary is privately held and is headquartered in Palo Alto, CA, USA.
